

Bring floors to life with **FloorTac™**

WINTER
SALE

FloorTac™ is a 3.2 mil (80μ) printable, matte white polymeric PVC film with a removable gray acrylic adhesive. It is designed for attention-grabbing floor graphics that instantly take floors from drab to fab.

Its removable, non-damaging adhesive makes FloorTac™ ideal for short-term indoor advertising where graphics are applied to floor or ceramic tiles, sealed wood or concrete, waxed vinyl, marble, or terrazzo.

When combined with Drytac's Emerytex® laminating films, FloorTac™ provides a slip-resistant finish for the ultimate floor graphic solution.

FloorTac™ is compatible with (eco) solvent, UV and latex printers. Available in widths up to 54" (1372mm).
