

Polar™ Transit

Graphic Messaging on the Move

OUTDOOR DURABLE

**Capture new audiences
via every route!**

Polar™ Transit is a 3.2 mil (80μ) premium, matte white self-adhesive PVC film with a high quality, removable gray acrylic adhesive.

The film can be adhered to smooth, flat surfaces such as hockey rinks and bus king, queen and tail posters. Its rugged qualities make Polar™ Transit ideal for outdoor transit applications such as temporary fleet graphics and transportation signage.

Polar™ Transit is compatible with (eco) solvent, UV and latex wide-format inkjet printers. Available in widths up to 62" (1575mm).
