

SpotOn® PRINTABLE VINYL FOR GRAPHICS DONE RIGHT

SpotOn® is a 4 mil (100µ) printable PVC film with a unique dot patterned removable adhesive. Virtually undetectable, the dot patterned adhesive ensures graphics can be installed with minimal effort, remain in place for the duration of the application, and can be removed with ease.

The film's adhesive allows for easy, bubble-free application of vibrant graphics to a wide range of substrates without the need for tools or wet installation.

Available in clear matte frosted, clear gloss, white matte, and white gloss finishes*, SpotOn® is commonly used for window graphics but can also be used for short-term indoor applications such as wall graphics, tradeshow graphics or retail graphics that require seasonal change out.

SpotOn® is compatible with (eco) solvent, UV and latex printers. Available in widths up to 54" (1372mm).

*Finishes vary by location.
