# ReTac® Smooth

*print media*

Our 6 mil (150 $\mu$ ) printable, matte white polymeric PVC film with ReTac® ultra removable adhesive technology is designed for graphics that need to be easily installed, removed and re-positioned. Dimensionally stable, ReTac® Smooth can be applied and re-positioned multiple times without stretching or tearing. And, with ReTac® on the back, you never have to worry about adhesive setting up, being left behind, or damaging the surface it is adhered to when graphics are removed.

ReTac® Smooth is compatible with (eco) solvent, UV and latex printers. Available in widths up to 61" (1549mm).

*Ideal for interior  
wall graphic applications  
(appliques & wall murals)*

*Adheres to smooth surfaces  
(walls, doors, glass,  
& metal)*

*Easy to install,  
re-position &  
remove cleanly*

*Compatible with  
(eco) solvent, UV &  
latex printers*

**DRYTAC®**
